

## Directions:

1. Show your child the sorting mat and explain the three categories: uppercase letter, lowercase letter, and number.
2. Look through a magazine and show your child an uppercase letter, a lowercase letter, and a number. Explain each one.
3. Help your child look through an old magazine or flyer and find examples of uppercase letters, five lowercase letters, and five numbers.
4. Assist your child with cutting or tearing out the letters and numbers and placing them in the right spot on the mat.

Extend it! Allow your child to write an example of an uppercase letter, lowercase letter, and number in the correct spots on the mat.

# Sorting Mat

numbers	uppercase	lowercase
